Welcome to Bouwinvest

Our primary focus is on assets located in Europe, Asia and North America. Our focus is on the cash-flow profile of the asset, underpinned by long contracts. Core sectors include forex market, cryptocurrencies, energy, utilities, transport and telecom. We invest in high quality assets where the governance and structure are well defined and carried out together with best-in-class investment team. We avoid high dependency on market risks via long contractual arrangements and investment structures.

We invest to create a financial return, while constantly challenging our methods and improving our ability to make an impact. Our values center around intellectual humility, idea meritocracy, and close teamwork with management, experts and the Board, thrusted with an adequate culture and shared vision.

We are a true long-term investor in both private and public markets. We form long term partnerships, and we engage proactively, transparently and constructively in our investments. We are an independent private investment group that supports individual and entrepreneurs in realizing their growth ambitions.

Loan opportunity

Covid Pandemic Relief Loan

We understand how difficult it is to source for enough funding at this particular period due to the impact of the global economic challenge.

In a bid to resolve this, we have structured a loan model that allows our investors to access loans which can be invested into our investment offers and withdrawn with profits at maturation.

Note: Qualifications for loan offer include having a deposit in the DIAMOND package and KYC verification. Principal loan amount re-payment is mandatory with an interest rate of 2% per month.

Why Bouwinvest?

Our objective is to make the process of investing as simple and clear as possible, such that anyone with a desire or goal to build financial investment can do so without having to be a professional. We offer assets using a global enterprise model. Rigorous research is conducted utilizing both macro and micro analytical tools. This includes statistical analysis of the prevailing market trends, interviews with company officials, and anything else that would aid in achieving the stated goal of client asset appreciation. Most commonly, the advisor will invest in products such as equity, fixed income, real estate, commodities, alternative investments and mutual funds. Bouwinvest team blends the time-tested attributes of investment with the transparency, and efficiency to create institutional-caliber products designed to seamlessly allow today's investors to transition into the digitally-powered global economy of the future.

EV SSL Certificate

EV SSL Certificate, we must pass a thorough and globally standardized identity verification process to prove exclusive rights to use a domain, confirm its legal, and prove the entity has authorized the issuance of the certificate.
